16th Annual Bull Sale

MARCH 28, 2020 AT 1:00 PM
NORTHERN LIVESTOCK SALES
LLOYDMINSTER SK

Hello and welcome to my 16th Annual Bull Sale. A very special thank you to all my customers, bidders and future customers. You are greatly appreciated. If you have any questions, call myself or Brian Bouchard, Roger Peters, Ryan Noble. They have all seen the bulls and speak highly of them.

Please welcome Kristie and Tom Knudsen from LaCorey, of Whitewood Ranch, who have 4 bulls in the sale.

The bulls are on a full herd health program and double vaccinated for foot rot with Fusogard. The bulls pictures and videos were done the 5th of December 2019. They have really grown since then. The bulls are fed brown oats for longevity. All the bulls are diluter tested and results available on request.

Again, thank you to my customers.

BOLT SPRING 2020 BREED AVERAGE

CE	BW	WW	YW	MILK	MCE	MWWT
6.7	3.4	69.5	102.4	25.2	3.9	59.9

CALVING EASE: The ease with which a bull's calves are born to first calf heifers. A first calf heifer is defined as a female calving for the first time at 33 months of age or less. EPDs are reported as the standardized rank of the animal in the Canadian Simmental population. When comparing calving ease EPDs of two sires, the larger EPD indicates a higher percent of unassisted births for calves sired by this bull.

BIRTH WEIGHT: Calf weight at birth adjusted to a mature dam equivalent. Expected progeny performance is reported in pounds. The EPD value predicts the difference in average birth weight of a bull's calves, compared to calves of all other bulls evaluated. When comparing the birth weight EPDs of two sires, the larger EPD indicates a heavier average birth weight for calves sired by this bull.

WEANING WEIGHT: Calf weight taken between 160 and 250 days of age and adjusted to 205 days of age and a mature dam equivalent. Expected progeny performance is reported in pounds. The EPD value predicts the difference in average 205 day weight of an animal's calves compared to calves of all other animals evaluated. When comparing the weaning weight EPDs of two sires, the larger EPD indicates a heavier average weaning weight for calves sired by this bull.

YEARLING WEIGHT: Weight taken between 330 and 440 days of age and adjusted to 365 days of age and a mature dam equivalent. Expected progeny performance is reported in pounds. The EPD value predicts the difference in average 365 day weight or an animal's progeny, compared to the progeny of all animals evaluated. When comparing the weaning weight EPDs of two sires, the larger EPD indicates a heavier average yearling weight for calves sired by this bull.

MATERNAL CALVING EASE: The ease with which a sire's daughters calve as first calf heifers. A first calf heifer is defined as a female calving for the first time at 33 months of age or less. Expected progeny differences are reported as the standardized rank of the animal in the Canadian Simmental population. When comparing the maternal calving ease EPDs of two sires, the larger EPD indicates a higher percentage of unassisted births for calves born to this sire's daughters.

MATERNAL WEANING WEIGHT: The weaning weight of an animal's daughters' calves. Expected progeny performance is reported in pounds. The EPD value predicts the difference in average 205 day weight of an animal's daughters' calves compared to calves from daughters of all other animals evaluated. The evaluated reflects both the maternal ability of an animal's daughters and the growth potential of their calves. When comparing maternal weaning weight EPDs of two sires, the larger maternal weaning weight EPD indicates heavier weights due to daughters' ability to produce heavier calves.

Catalogue online at:

WWW.CATTLEPICS.COM

Win a \$2000 sale credit!

Purchase a bull from any Saskatchewan member, and when the registration papers are transferred, your name is entered to win a \$2000 sale credit. The draw will be made at the SSA's annual general meeting in July and the lucky winner will have one year to use the credit at any public or private sales on bulls or females purchased from any SSA member.

TERMS: The terms of sale are cash or cheque. All cattle must be settled for at the conclusion of the auction. Cattle will not be released from the sale premises until payment is received in full, unless other arrangements have been made prior to the sale with the individual contributor. Every animal sells to the highest bidder, in the case of disputes, the auctioneer's decision will be final, and becomes the risk of the purchaser. We reserve the right to withhold animals from shipment for whom payments have not been received prior to departure times.

BUYERS REGISTRATION: Buyers please register for a buyer number at the office prior to purchasing.

BREEDING GUARANTEE: All bulls are guaranteed to be fertile and reproductively sound in accordance with the rules and regulations recommended by the breed associations. All bulls will be semen tested.

ANNOUNCEMENTS: Errors in this catalogue will be corrected by announcements from the block at sale time and such announcements will take precedent over any printed material. Any disputes will be settled by the auctioneer.

ACCIDENTS: Although every precaution will be taken, all persons who attend the sale do so at their own risk. The owners, management, the sales staff assume no liability, legal, or otherwise for any reason.

CERTIFICATE OF REGISTRATION: A certificate of registration duly transferred will be furnished to the buyer by the breeder for each registered animal after complete and full payment has been made.

INSURANCE: Bulls who go back to the seller's farm must be insured by the buyer, insurance agents will be in attendance.

This April born 2 year old was kept back to sell as a 2 year old. Being born in April, he was too young for last year's sale. In June, Cindy Cave needed a bull to breed her heifers. I told her I don't think he is a heifer bull. She used him on her heifers. Calves be born this April. He goes back to the 3M cow. Every heifer from 3M is in the herd—daughters, grand daughters, great grand daughters. Her sons, grand sons are all sold as bulls. 139F has an awesome pedigree, he will breed a lot more cows as a two year old.

100% Fleckvieh.

This stout, deep sided, wide topped bull. Off a very good productive Little Willow cow. As an 8 year old cow her udder looks as good now as it did when she was a heifer. 99G will leave a lot of good daughters. A bull that gets a lot of looks.

Off a first calf heifer this guy has really come on. With an 80 pound birth weight and a 90 pound weaning weight, his mom did a super job. Maybe a little too friendly, always looking for a scratch and a rub. A pedigree that would work in a lot of herds.

Here's a bull that has had that herd bull look from a young age. His blood red colour, awesome haircoat with that black pigment. Good feet, deep bodied, wide topped bull that is hard to fault. Awesome pedigree, lots of maternal and paternal power. If you can overlook he's a March 13 born calf and see the extra 2 months in him if he was January born. Admired by all who have seen him. He will be a very good investment. If his calves look like him they will all be keepers. Hard to go work in any herd. Almost perfect.

WHITEWOOD RANCH

Welcome Everyone! We are excited to have the opportunity to be a guest consignor in Kulyk Simmental's 16th Annual Bull Sale!

As we are new, we would like to give a little introduction to our farm. Tom and Lucie Knudsen have five children who are all grown up. They have been raising commercial cattle for over 35 years, and raising registered Simmentals since 2010. Their youngest daughter Kristie has shown interest in the registered Simmentals and that's where they began their registered herd. It has always been a dream of ours to sell bulls in a sale, after many years selling bulls off the farm we are excited to have this opportunity. Raising quality working cattle is our goal! We are very proud of the bulls we have to offer and we look forward to meeting you all on sale day!

TLK Whitewood Gordy 7G is a striking deep red bull with all the right markings and conformation. He is a powerhouse and has a well natured personality that is sure to be passed on to his future offsprings. His mother is a young cow that we purchased as a yearling back in 2017 from Crossroad Farms. He is our favourite of this year's group of bulls!
